The object of the Canadian Government Annuities Act is to promote habits of thrift, and to provide all persons, male or female, domiciled in Canada with a safe and sure plan of making provision for old age at the lowest possible cost. Deposits may be made at any Money Order Office in Canada, for which purpose the postmaster will supply the purchaser with a pass book; or deposits may, if preferred, be remitted direct to the Annuities Branch in any manner that may best suit the convenience of the purchaser; If by cheque or money order, this should be drawn to the order of the Receiver-General. Upon all deposits 4 per cent compound interest will be allowed, and at the age of 55 (which is the earliest age at which an Annuity can begin) or at any later age desired—and of course the longer deferred the larger will be the Annuity, such Annuity as the total amount then at the credit of the Annuitant will purchase will be paid in quarterly instalments so long as the Annuitant lives. A definite amount of annuity may be secured if specific sums are regularly paid. Should the Annuitant die before the date fixed for the Annuity to begin, all payments made will be returned to the legal representatives of the purchaser with 3 per cent compound interest; though the same payments will secure a larger Annuity if the purchaser does not wish to provide for this return.

If a person has an amount at his credit in the Post Office Savings Bank, he may have this amount, or such portion of it as he may desire, transferred to the Annuities Department for, or on account of, the purchase of an Annuity.

The minimum Annuity which may be purchased is $50, and the maximum $600. The earliest age at which the purchase may be begun is 5, but it may begin at any age thereafter. To each purchaser a contract or policy is issued; and a provident feature of the system is that there are no penalties or forfeitures. If payments should for any reason cease, they may be renewed at any time; and if arrears are not made up the only effect will be that a smaller annuity will be secured. Should the payments made be not sufficient to purchase an Annuity of $50, the total amount paid in with 3 per cent compound interest will be returned to the purchaser.

Anyone over the age of 55 may buy an Immediate Annuity; and a Last Survivor Annuity, Immediate or Deferred, may be purchased by any two persons by a single payment.

By paying a little higher rate, all Annuities may be guaranteed for a number of years certain.

Deferred Annuities are issued on three plans, namely, (1) without return to the estate of the purchaser of any payments made should death occur before the Annuity falls due, which gives an Annuity at the very lowest cost; (2) with return of payments to the legal representatives of the purchaser in case of death before the date fixed for the Annuity to begin for which a little higher rate is charged; and (3) with return of payments should death occur before the date fixed for the Annuity to begin, but should that date be reached the payment of the Annuity to be guaranteed for a number of years certain, not to exceed 20 years, and if the Annuitant should survive the guaranteed period the Annuity to be continued to him so long as he might live. Where death occurs before the date fixed for the Annuity to begin and a return of the payments is made interest at 3 per cent compounded up to the date of death is allowed.

Up to the 31st of March, 1911, on the first plan 177 contracts have been issued; on the plan providing for a return of the payments should death occur before the date fixed for the Annuity to begin, 676 contracts have been issued; and on the guaranteed plan, 566.

The Annuity is not transferable, but under the Act it is provided that where the purchaser of an Annuity is made by husband or wife, he or she has the right when the

Annuity matures to say if it is desired that a portion of the Annuity shall be paid to the other. Should a division be made the portion going to each would end with his or her death, and the survivor would receive no benefits therefrom. This is considered to be a most valuable privilege, and to some extent has the advantage of the purchase of a Last Survivor Annuity.

But the Annuitant would receive full credit in the adjustment of the account at the end of the year for any amount paid in excess of the annual rate for the same Annuity.

If he survived the 10 years, the $100 a year, which is the annual income on a deposit of $3,333.33⅓ in the Post Office Savings Bank, would be paid to himself so long as he might live if he should live to be 100 or over.

FEES CHARGEABLE UNDER THE INSPECTION AND SALE ACT CHAP. 85.

Flour and Meal.

For such inspection and branding and marking the person who required the inspection thereof shall pay to the inspector for each and every barrel and half barrel of flour or meal so inspected and branded or marked the sum of two cents exclusive of the charge for cooperage, before such flour or meal is removed ; and when any less quantity than one hundred barrels of flour or meal is offered for inspection at one time, the inspector shall be entitled to receive the full fees that would accrue to him on one hundred barrels.

As soon as any flour or meal is inspected, a bill of inspection shall be furnished by the inspector or deputy inspector without fee or reward, specifying neatly and legibly the quantity and quality ascertained by inspection, the gross weight of five per cent. thereof, and the tare of one per cent thereof and the charges therefor, and the name of the mill at which the flour or meal was manufactured.

When the inspector in his judgment deems it necessary to strip or empty out the flour to find out if there is the proper weight of flour in any cask he shall be entitled to two cents for each barrel so stripped or emptied if it proves to be of short weight in addition to the two cents per barrel for inspecting and branding.

While from the above summary it will be observed there are 1909 elevators and 32 warehouses existing at the present time, only 1815 of these were operated under license during the year, due to the fact that some 126 elevators and warehouses were not operated at all last year on account of the short crop in certain districts.

Certain elevators were reported during the season as being in a collapsed condition, and in accordance with the Statute in that behalf relief was afforded to same as per attached table:—

Very few sites for flat warehouses were applied for during the season; I however, append a Table showing the number, with the Provinces and railway lines at which they were applied for and authorized during the season:—

Requests for the appointment of temporary agents were almost double this season compared with last, as the statement below shows:—

1909–10	13	13	.....	11	9	1	4	.....	.....	51

In explanation of the above I desire to say that at many stations where temporary agents were ordered appointed by the Undersigned a year ago the appointment, in consequence of expansion of business in the district, has been made permanent. The increase in the number of temporary agents is entirely due to stations opened up on new lines.

The following table shows the total number of bushels of the various kinds of grain marketed, the proportion which was handled by the country elevators and also the proportion shipped direct over the loading platform:—

*Shipped locally-not inspected.

Please note the total oats shipments both from country elevators and over the loading platform amounted to 37,851,100 bus., and of this quantity only 26,351,100 bus. were inspected; that is to say 11,500,000 bus. were shipped from one district where there was a surplus of oats to another district where there had been a total or partial oat failure—due to drought. Many of the districts in southern Manitoba, Saskatchewan and Alberta had to purchase not only their seed oats but their feed as well.

Owing to drought prevailing, especially in the southern districts of the three Western Provinces, during the growing season of 1910 it was impossible to approximate with any degree of accuracy what the yield per acre would be.

The wheat yield was variously estimated from as high as 120,000,000 bus. during the earlier stages of the season to as low as 75,000,000 and 80,000,000 bus. at harvest time.

The following table, however, discloses the actual results of the wheat crop at the close of the season:—

Wheat situation, August 31st, 1911—Final report for crop of 1910.

*Not including flax screenings 2,697 bushels.

The percentage of shipments ex Fort William and Port Arthur terminals to American ports has been steadily increasing during the last four or five years, when they received from us about twenty per cent of the wheat crop and only a nominal percentage of the other kinds of grain. No doubt the Milling-in-bond-in-transit privilege given by the States will account, to a considerable extent, for the increase during the past two years; also the lower freight rates via American ports to American sea-board which prevailed on occasions during the year.

The net shortage on cargoes received at Eastern Transfer Elevators, with net shortage per 1,000 bushels during the year are as follows:—

	Net. Shortage.	Average Shortage per 1000 Bushels.
	Bush.	Lbs.
Wheat	13,394 45	26
Oats	12,102 04	28
Barley	625 25	39
Flax	234 32	27

By an Act of the Provincial Government of Manitoba the Manitoba Elevator Commission was created, and they commenced their operations this season by purchasing 174 country elevators throughout the Province; however, in consequence of the drought only 97 of these were operated. For the most part the grain received at the Manitoba Government elevators is handled in special bins in car lots. That is to say they do a warehousing business pure and simple. To take care of the waggon load lots that are offered for sale on the street they have arranged with certain grain dealers to lease space in each of their elevators to such dealers. These dealers in common with all other elevator operators are required to furnish bonds and take out a license before operating.

The receipts of wheat at the Government elevators for the year amounted to 3,113,236 bushels, and of oats and barley, 1,938,686 bushels; a total of 5,051,922 bushels. The short crop in Manitoba naturally affected the receipts at these elevators the same as at those belonging to other parties. I am confident, however, that they would have handled a very much larger quantity than they did had the crop conditions been different.

Comparatively speaking very few complaints were received at this office on account of scarcity of cars. I am pleased to report that relief at all such points was afforded by the railway companies within twenty-four hours after I had drawn the matter to their notice.

The crop of the North-West for the season was of its usual high quality and character, and the prices received by farmers were highly remunerative.

While naturally in a crop of the magnitude here dealt with, numbers of disputes will of necessity arise between farmers, elevator operators, grain commission merchants, track buyers and also the railway companies, the number of such disputes dealt with by this office during the year were not greater than one would expect under the circumstances; all such, however, were promptly dealt with, and where justified the necessary relief sought was obtained.

The above is respectfully submitted.

Sgnd. C. C. CASTLE,
Warehouse Commissioner.

1. The contractors will provide, establish and during the period of five years calculated as and from the first day of August, one thousand nine hundred and eleven, maintain, continue and carry on in the manner hereinafter set forth a regular steamship service between the city of Vancouver, in the province of British Columbia, and the city of Auckland, in the Dominion of New Zealand, calling at the outer wharf in the city of Victoria, in the said province of British Columbia, Honolulu, in the Sandwich Islands, and Suva, in the Fiji Islands, on both outward and homeward voyages from Vancouver to Auckland and from Auckland to Vancouver. Provided, however, that if so required by the minister each voyage from Canada to New Zealand shall be extended to a port or ports in Australia.

Steamers to be employed and their Equipment.

2. The steamships *Makura, Marama, Zealandia,* or such other steamships of not less than an equal number of tons gross tonnage to be approved by the minister for that purpose shall be regularly and continuously employed in the said service. Each of the said steamships is warranted to have the most approved triple expansion machinery, refrigerators for ship's use, duplicate electric light engines, special ventilation for tropical voyages, ample saloon and cabin accommodation for at least 130 passengers, and to be provided with every comfort and convenience that is to be found in the best Atlantic liners of its size. Each of the said steamships is further warranted to be of the highest class at Lloyd's or British Corporation, and to comply in every respect with the requirements of the Marine Acts or Regulations of Canada, and each of the said steamships shall during the continuance of the agreement be at all times tight, sound, staunch and strong and well and sufficiently manned, victualled and equipped and in every respect seaworthy, and shall further at all times during the continuance of this agreement retain the qualification and class which it is hereinbefore warranted to possess.

Voyages.

3. The round trip for each of the said steamships shall begin and end at Vancouver, in the province of British Columbia, calling as aforesaid at the outer wharf in the city of Victoria, Honolulu, and Suva on each and every voyage as aforesaid. The first voyage in performance of this agreement shall commence and be made from Vancouver four weeks from the date of the last departure from Vancouver of one of the company's steamships under the supplementary contract expiring on the first day of August in the present year, and subsequent voyages after the first shall commence and be made from Vancouver aforesaid on dates and at times to be from time to time appointed for that purpose by the minister. The duration of each voyage from Vancouver to Auckland and from Auckland to Vancouver shall not exceed twenty days including one day's detention at Honolulu on each voyage both outward and homeward

Four-weekly Service.—Commencement and Completion of Voyages.—Minister's Decision to be Final.

4. The said service shall be four-weekly and the said steamships shall leave the said ports of Vancouver and Auckland on the days and at the time to be from time to time appointed for that purpose by the minister after consultation with the Postmaster-General of New Zealand. Each voyage shall be deemed to commence as soon after the completion of the embarkation of the mails intended to be thereby conveyed as having regard to practical considerations the anchor of such vessel can be weighed or the vessel can be loosed from its moorings and each such voyage shall be deemed to be completed when the vessel has arrived and been anchored or moored at some position in the port of destination from which the mails can be conveniently disembarked, and the times of the commencement and completion of every voyage shall be ascertained and recorded by the officers of the minister in pursuance of arrangements to be made from time to time by him for such purpose, and the decision of the minister as to all questions relating to any such times or periods shall be final and conclusive.

Call at U. S. Ports.

5. The said steamships shall not during the continuance of this contract call at any port in or of the United States of America (Honolulu only excepted).

Passenger and Freight Rates.

6. The said steamships shall each according to its capacity carry both outward and homeward all the freights and passengers which may be reasonably offered and obtained and at tariff rates both as to passengers and freights which shall be approved by the minister and after consultation with and approval of the government of New Zealand.

No discrimination to be made against Canadian ports, railways, merchants or shippers.

7. No discrimination shall be made as regards tariff rates for either freights or passengers in any manner directly or indirectly against any Canadian ports or against any Canadian railway or railway company, or against any Canadian merchants or shippers, but Canadian merchants and shippers shall at all times have preference for the carriage of their goods over other merchants and shippers as far as regards the Canadian connection.

Carriage of Mails.

8. During the continuance of this agreement the said steamships shall at the cost and expense of the said contractors receive and carry on each and every voyage all such mails as shall be or may be tendered for conveyance to the said steamships or to the masters or any officers on board of the same at the ports of Vancouver and Victoria aforesaid by or on behalf or under the direction of the minister for the time being, his officers, agents or servants, and shall deliver such mails at their proper ports of destination upon the sailing route of the said steamships, as herein indicated, and in order to the due and proper performance of this covenant the said steamships shall each be provided with sufficient and convenient accommodation and protection for all such mails to the satisfaction of the minister for the time being, and the contractors shall further take all reasonable and necessary precautions for the protection of such mails while upon the said steamships from loss, damage or injury in any way, and shall be responsible for any loss or damage thereto caused by the negligence or want of proper care or accommodation on the part of the contractors, or their agents or servants, or on the part of the officers or employees or crew on board of the said steamships.

Landing, etc., Mails.

11. The contractors and all commanding and other officers in charge of the vessels employed under this agreement shall at all times punctually attend to the orders and directions of the minister or his officers or agents as to the mode, time and place of landing, transhipping, delivering and receiving the mails subject to the special provisions herein contained, and so far as such orders and directions are reasonable and consistent with the safety of the vessels.

Delay of steamers for twenty-four hours to receive mails.

16. The minister shall, in case of need and for the purpose of duly forwarding such mails as may be required, have the right to delay the sailing of any of the said steamships for the space of twenty-four hours, but in no case shall the minister exercise the right hereby conferred after the delivery on board such steamships in the ports of Vancouver and Victoria of the mails from Canada and other places intended for conveyance thereby, which mails shall be delivered on board with all reasonable despatch.

Assignment, &c., of Contract.

19. This agreement shall not nor shall any right or interest therein be assigned, underlet or otherwise disposed of without the consent in writing of the minister to such assignment having been first obtained, unless it be to a Limited or Joint Stock Company, of which the contractors shall be principal shareholders or stockholders.

Manifests, customs certificates, and other proof of performance of service to be furnished.

20. The contractors shall from time to time furnish to the minister full and complete copies of the manifests of the cargoes and lists of the passengers carried by each of the said steamships on its outward and its homeward voyages, certified by the proper customs officials and also such other documents, information and evidence as may be reasonably required by the minister to show the volume, extent and value of the trade carried on by the said steamships and such other customs certificates documents and evidence as may be necessary or as may be reasonably required by the minister to prove the performance of the service herein contracted for and to enable the minister to judge as to whether this agreement is being properly and faithfully carried out and performed and the furnishing of such certificates documents information and other evidence as hereinbefore specified shall be a condition precedent to the payment of the subsidy hereinafter provided or any portion thereof.

Canadian Trade Commissioners.

Clause 21 provides for the free transportation, including meals, of Canadian Trade Commissioners and their wives and children, or Canadian Commercial Agents, with first class accommodation, and free transportation for their household effects, when the said Trade Commissioners or Commercial Agents are travelling upon official duties or being transferred from one post to another.

Amount of subsidy, £37 090 18s. 2d. per annum.

23. That the minister shall pay to the contractors subject to their faithful performance of all covenants, agreements and stipulations to be performed on their part, pursuant to this agreement, a subsidy of thirty-seven thousand and ninety pounds eighteen shillings and two pence (£37,090 18s. 2d.) per annum, in proportionate instalments for each and every round trip performed by each of the said steamships in accordance with the intention of this agreement, provided, however, that no amount or instalments of subsidy shall be payable at any time unless it appears to the satisfaction of the minister that up to the time of such payment there has been no breach on the part of the contractors of any of the covenants, provisions or stipulations of this agreement, and provided also that the contractors shall be entitled to receive such subsidy as the Governments of New Zealand and Fiji may pay towards the service and also the Government of Australia should the service be extended to a port or ports in the said Commonwealth.

Deductions from Subsidy.

24. If at any time or times the mails required to be conveyed by the contractors under this agreement between Vancouver and Auckland and vice versa shall not be conveyed from Vancouver to Auckland, or from Auckland to Vancouver, within the respective periods of transits hereinbefore prescribed in that behalf, then, and so often as the same shall happen there shall be deducted from the subsidy which but for this provision would be payable to the contractors a sum of thirty pounds (£30) for every complete period of twenty four hours by which the time actually occupied

in the conveyance of such mails from Vancouver to Auckland, or Auckland to Vancouver as the case may be, shall have exceeded the period of transit hereinbefore prescribed in that behalf, provided always, that no deductions shall be made from the said subsidy by reason of any such default or failure as in this clause mentioned which may be proved to the satisfaction of the minister to have arisen wholly or in part from any cause or causes altogether beyond the control of the contractors.

Deductions from subsidy are not penalties.

25. Each of the deductions hereinbefore mentioned and hereby agreed to be made shall be made and the subsidy be reduced accordingly although no damage or loss shall have been sustained by reason of or in connection with such default and (except in such cases as in the last preceding clause hereof expressly provided) from whatever cause or causes any such failure or default shall have arisen and no such deduction shall in any case be deemed to be a penalty or in the nature of a penalty, and the payment by the minister of what shall from time to time remain due in respect of the said subsidy after making any such deductions as aforesaid shall in no case prejudice the right of the minister to treat the failure of the contractors to provide an appropriate vessel at any appointed place or time or to perform any service at or within the appointed period as a breach of this agreement.

Termination of Agreement.

26. This agreement shall remain in force until August 1, 1916, or until the completion of the 65th round voyage in terms of the contract, provided that the minister shall have the right at any time by giving notice in writing under his hand, to determine this agreement and every matter and thing herein contained if it shall appear to him that there has been any material breach on the part of the said contractors of any of the covenants, stipulations, agreements or provisions herein contained and entered into on the part of the contractors, and it is hereby declared and agreed that the minister shall at all times be the sole and final judge as to whether there has been any such breach and his determination shall be final and conclusive.

Substitution for Disabled Steamers—No Member of Canadian House of Commons to be Admitted to Share of Agreement.

27. Provided, however, and it is the true intent and meaning of these presents that if the said steamships any or either of them or any steamship replacing either of such steamships under this proviso shall be by the perils of the sea or other unavoidable casualty, lost, destroyed or temporarily disabled from performing their voyages according to the true intent and meaning of the agreements, stipulations and provisions herein contained, such loss or disability shall not be deemed to be a breach of these presents or any matter or thing herein contained, but the said contractors shall in such case, as soon as reasonably may be, having regard to the circumstances, replace the said steamships or steamship so lost or detroyed by others or another of equal class, speed, equipment, character and capacity to the satisfaction and approval of the minister, or to the like satisfaction and approval repair the damage done in case the said steamship has been only temporarily disabled and continue the said service herein contracted for with such substituted or repaired steamship with as little loss of time as possible under all the circumstances, provided always that there shall be no payment of any subsidy in respect of any voyage not actually and fully performed provided further that the minister shall be the sole judge and have the final right of determination as to whether any suspension or temporary discontinuance of or delay in the said regular four-weekly service has been actually caused

by the perils of the sea or other unavoidable casualties within the meaning of this proviso and his finding and determination thereon shall be conclusive. It is a condition of these presents that no member of the House of Commons of Canada shall be admitted to any share or part of this contract or agreement nor to any benefit to arise therefrom.

2. The said service shall consist of a sailing on or about the fifteenth day of each month from a Canadian port as hereinbefore provided during the continuance of this contract as follows:

(*a*) During the season of open navigation from the port of Montreal in the province of Quebec, to the ports, or any three of the ports, of Auckland, Wellington, Littleton and Dunedin in New Zealand, and the ports of Melbourne and Sydney in Australia, calling at such other ports in New Zealand or Australia as the contractors may desire.

(*b*) During the season of closed navigation on the River St. Lawrence from the Port of St. John, in the province of New Brunswick, calling on each voyage outward at Halifax, in the province of Nova Scotia, and thence to the said ports in New Zealand and Australia.

Freight Rates.

4. It is hereby understood and agreed that the rates charged by the contractors upon all classes of freight from the Canadian ports of departure to any of the said ports in New Zealand or Australia shall not be in excess of the rates charged upon the same classes of goods from any port of the United States on the Atlantic seaboard to New Zealand and Australia on any regular cargo or passenger steamship line, and no discrimination of any kind whatsoever, direct or indirect, shall be permitted against Canadian merchants or shippers; and it is further agreed and understood that the freight rates on through bills of lading *via* any Canadian Atlantic seaport from any place in the province of Ontario or Quebec, or from any Canadian point, shall in no case be greater than from similar points in the United States upon freight routed *via* any United States port on the Atlantic seaboard, and it is further understood and agreed that the said steamers shall not carry on any voyage run under the terms of this contract either deals or lumber or timber to a greater extent than fifty per cent of the total quantity of the cargo carried on such voyage, and such quantity only in case other Canadian products are not offering or cannot be obtained. Cold Storage.

5. The steamships engaged in the said service shall be suitably fitted with ample cold storage accommodation and appliances to meet all reasonable demands, which cold storage shall from time to time be the best known for the purpose; provided the contractors shall from time to time in the event of goods offering for shipment provide such further cold storage accommodation as shall be sufficient to meet the requirements of the trade offering.

Deduction for short cargo.

6. The contractors further covenant and agree to obtain and transport from Canada to New Zealand and Australia an average cargo every twelve months of 5,000 tons on each outward trip on and after the first sailing from St. John in the autumn of the present year, failing which the government shall deduct from the subsidy otherwise payable at the end of each twelve months following and including the said first sailing from St. John in the autumn of the present year $2 per ton for every ton short of 60,000 tons, measurement or weight.

£2,500.

(*d*) For each complete round voyage between Liverpool and St. John or Halifax, performed at the rate of seventeen knots per hour, 2,500 pounds sterling.

£1,000.

(*e*) For each complete round voyage performed at the rate of fifteen knots per hour, 1,000 pounds sterling.

Time of Payment.

'Such subsidy being payable at the end of each quarter for all voyages fully run and completed during each quarter, that is, at the close of the months of September, December, March and June, during the continuance of this contract; provided, however, that no amount or instalment of subsidy shall be payable or paid at any time unless it appears to the satisfaction of the minister that up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and that all provisions and stipulations as to dates of sailing, speed and duration of voyages, have been in all respects faithfully observed and carried out according to the true intent and meaning of these presents; and it is a further condition of this contract that the contractors shall, on the completion of each voyage, furnish the minister with such certified extracts from the steamer's log, together with track charts of the voyage, or any other information required, as will enable him to determine whether the service on such voyage has been within the requirements of this contract.

Withdrawal of Vessels.

(*a*) 'Provided always, that at no time during the continuance of this contract, except for thirty days between any fifteenth day of December and the following fifteenth day of February, shall more than two vessels of the seventeen and eighteen knot class be withdrawn at the same time from the service hereinbefore described.

Winter Service.

6. 'It is further understood and agreed that the service to be performed during the season of closed navigation on the River St. Lawrence shall be as follows:—

'Between the port of Liverpool and the ports of Halifax and St. John, one of the said steamers sailing on each westbound trip from Liverpool each Thursday, or on such other day as may be approved by the minister, for Halifax and St. John, and calling at Moville for the embarkation of the mails, if the call at that port be adhered to, and at Halifax for the landing of such mails; and one of the said steamers sailing on each eastbound trip from St. John each Saturday, or on such other day as may be approved by the minister, for Liverpool, calling at Halifax for the embarkation of the mails, and at Moville for the landing of such mails, if the call at that port be adhered to; it being understood and agreed that if from any cause it should prove impossible for the steamers performing the service to secure sufficient cargo at St. John during the winter season, or if at any season there is inadequate accommodation in the harbour at St. John for any of the said steamers, the minister may, in his discretion, relieve the contractors from the obligation of proceeding to or starting from that port on any particular voyage or voyages.

Summer Services.

7. It is further understood and agreed that the service to be performed during the season of open navigation on the River St. Lawrence shall be as follows:—

(*a.*) 'On all voyages from Montreal and Quebec eastward to Liverpool the steamers shall be at liberty to proceed by the way of the Straits of Belle Isle, and upon all such voyages the port of call below Quebec shall be Rimouski for the embarkation of the mails and at Moville (if the Moville call be adhered to) for the landing of the mails.

(*b.*) 'On all voyages westward from Liverpool the steamers shall call at Moville for the embarkation of the mails (if the Moville call be adhered to) and shall be at liberty to proceed by way of the Straits of Belle Isle, and on all such voyages the port of call below Quebec shall be Rimouski for the landing of the said mails.

(*c.*) 'On all voyages eastward or westward from or to Montreal and Quebec via Cape Race the port of North Sydney may, at the option of the minister, be substituted for the port of Rimouski for the embarkation or landing of the said mails.

Tenders at Rimouski and North Sydney.

8. 'It is understood and agreed that at Rimouski and North Sydney the mails are to be delivered to and received from tenders supplied by the postal authorities of Canada.

Distances.

9. For the purpose of this contract the following shall be understood to be the distances between the points hereinafter mentioned, *i.e.*, between Moville and Rimouski via Belle Isle, 2,300 miles, and between Moville and Rimouski via Cape Race, 2,500 miles, except when it may become necessary for steamers to deviate to the southward to avoid ice, in all which cases the actual number of miles travelled upon the voyage, not exceeding in any instance 2,800 miles, shall for the purposes of this contract be taken to be the distance aforesaid; and between Halifax and Moville, 2,255 miles, except when it may become necessary for steamers to deviate as aforesaid, in all which cases the actual number of miles travelled upon the voyage, not exceeding in any instance 2,550, miles, shall for the purposes of this contract be taken to be the distance aforesaid; and between Moville and Sydney, 2,105 miles, except when it may become necessary to deviate as aforesaid, in all which cases the actual number of miles travelled upon the voyage, not exceeding in any instance 2,405 miles, shall for the purposes of this contract be taken to be the distance aforesaid.

Cold Storage.

10. 'It is understood and agreed that each steamer while run under this contract shall be fitted with adequate cold storage accommodation to the satisfaction of the minister.

Average rate of speed. (See also clause 5.)

11. 'The contractors bind themselves to run each of the three classes of steamers hereinbefore referred to at the average rate of speed for each voyage as specified in clause 5, in performing the several voyages from port to port, unless in the opinion of the captain of said steamer the said rate of speed would endanger life or the safety of the ship, or unless the speed of the ship is delayed by reason of fog, ice, snow or stress of weather, or by assisting ships in distress, in any of which events the contractors shall submit to the minister the captain's explanation of the cause of the delay, and such other evidence as the minister may require to enable him to determine and the minister upon such explanation and evidence shall determine whether the circumstances were such as justified the captain's reduction of the speed of the voyage or sufficiently explain the delay in completing the voyage, and in all cases where such failure to maintain the said average rate of speed is deemed justifiable or sufficiently explained the minister may, in his discretion, omit the voyage in question in calculating the average for the quarter in which such voyage took place, or may deduct the period of such delay in calculating such average.

Deductions for delays.

12. 'If during any quarter the mails carried by the steamers *Victorian* and *Virginian* and the two eighteen-knot steamers are not conveyed from port to port at the average rate of the speeds specified in clause 5 for the said four steamers after omitting voyages and deducting delays as provided in the last preceding clause, or if during any quarter the mails carried by the fifteen-knot steamers required for the carrying out of this contract are not conveyed from port to port at the average rate of speed specified in clause 5 for the said fifteen-knot steamers, after omitting voyages and deducting delays as provided in the last preceding clause, then, and so often as the same shall happen, the contractors shall furnish to the minister the certified logs of the captains of the steamers showing the causes of the delays, and there shall be deducted from the subsidy payable to the contractors for the said quarter a sum

equal to five per cent of such subsidy for every one-quarter knot by which the average speed actually made has fallen below the average speed specified in clause 5 of this contract.

Average rate of speed between December 15 and February 15.

Provided, however, that for the period between any fifteenth day of December and the following fifteenth day of February when steamers of different classes are employed in the service, the average rate of speed shall be arrived at by taking the averages of the speeds of all the steamers employed in the service during the said period.

Maximum deduction.

'Provided further, that the total amount of the sum deducted in respect of such default or failure of either of the two classes of steamers mentioned in this clause shall not exceed the full amount of the subsidy allowed the said class for the quarter or period in question.

Subsidy for fifteen-knot Steamers.

13. 'Subject to the provisions of clause 11 hereof, the other steamers required for the carrying out of this contract, and which may from time to time be approved by the minister as provided in clause 2 hereof, shall when in service be entitled to receive a subsidy which will bear the same proportion to the sum of £1,000 as the actual speed made by the said steamers will bear to the speed of fifteen knots per hour.

Freight and passenger rates.

14. 'It is further understood and agreed that the tolls to be charged in the way of either freight or passenger rates between ports on both east and westbound trips shall always under substantially similar circumstances and conditions, be charged equally to all persons, and at the same rate, whether by weight or otherwise, in respect of all traffic of the same description and receiving in carriage the like accommodation; and further, that no toll shall be charged which discriminates against Canadian merchants or shippers or against emigrants to Canada.

Provisions for renewal of Contract.

15. 'If the contractors comply with the terms of this contract then at the expiration hereof His Majesty will enter into a new agreement with the said contractors for a further period of five years for payment to the contractors of such subsidy as His Majesty may then be prepared to pay to any one, provided the contractors by such new agreement will then undertake to perform such service as His Majesty may then require during the said new five-year term, in such manner and upon such conditions as His Majesty may then prescribe.

Termination of Contract.

Section 28, referred to in section 1, reads as follows:—

28. 'It is declared to be the true intent and meaning of these presents that the minister shall have the right at any time during the continuance of this contract, upon thirty days' notice in writing to the contractors, their successors or assigns, to terminate this contract, and every matter and thing herein contained, if it shall appear to the minister that there has been any breach on the part of the contractors, their successors or assigns, of any of the covenants, agreements, stipulations or provisions herein contained and entered into on the part of the contractors; and it is declared and agreed that the minister shall at all times be the sole and final judge as to whether there has been any such breach, and his decision shall be absolute, final and conclusive.'

Contract No. 43.

Vote 174.—Steam Service between Canada and Cuba.

1911-12 . . . . . $25,000
1912-13 . . . . . $25,000

This service is performed by Messrs. William Thomson & Company, Ltd., of St. John, N.B., under terms of a contract dated January 3, 1911, which will expire on March 31, 1912.

The principal provisions of the contract are as follows:—

Sailings.

1. The contractors owning or controlling such steamships of British or Canadian register as may be approved by the minister of a minimum gross and net tonnage of 1,500 and 1,000 tons respectively, each having passenger accommodation for not less

than twenty first-class passengers, and guaranteed as rating at Lloyd's 100A1. will during the present month place the said steamships, or such other steamships as may be approved from time to time by the minister on a route between St. John in the province of New Brunswick and Havana in the Republic of Cuba, and will continue to maintain therewith until the 31st day of March, 1912, a direct monthly service each way from the said port of St. John to the said port of Havana and return thereto, sailing from St. John at regular intervals on such fixed dates as may be sanctioned by the minister, such dates to be advertised at least twenty days in advance of the respective sailings. Should, however, the contractors be able to produce satisfactory evidence that there is not a reasonable quantity of cargo offering from Cuban ports for Canada, the minister shall have the option of deciding, upon formal application therefor by the contractors, that any steamship sailing from St. John shall be deemed to have completed its voyage upon arrival of the said steamship and discharge of cargo at Havana or other Cuban ports, instead of requiring such steamship to return thence direct to Canada.

Speed.

2. Each of the said steamships while employed as herein agreed shall on all north and southbound voyages run at an average speed of not less than 10 knots per hour, extraordinary conditions of the weather excepted.

Subsidy: $25,000 per annum.

Clause 3 provides for a subsidy at the rate of $25,000 per annum, payable in monthly instalments of $2,083 upon the completion of the service each month from the commencement of the contract as hereinbefore stipulated.

Freight Rates.

Clause 8 provides that freight rates shall be subject to the approval of the minister.

Traffic to be routed via Intercolonial Railway.

Clause 9 provides that freight from Cuba, when not otherwise routed by shippers or consignees, shall be delivered to the Intercolonial railway at St. John for shipment to final destination in Canada; provided that the Intercolonial railway rates are not in excess of any other railway rates from St. John to the said ports of final destination.

Passengers for the province of Quebec or the maritime provinces are, when not otherwise routed, to be handed over to the Intercolonial railway at St. John.

Freight destined for Cuba shall, whenever possible, be delivered to the Intercolonial railway at Montreal.

Transportation of Trade Commissioners.

Clause 10 provides that Canadian trade commissioners, their wives and children, and Canadian commercial agents, shall be carried free, with free transportation of their household effects, upon any steamship in this service when travelling upon official duties.

Additional Steamships.

11. It is further understood and agreed that should there be sufficient cargo to justify the placing of additional steamships upon the route, the contractors shall provide such additional steamships as in the opinion of the minister may be necessary, upon being notified of such necessity by the minister in writing, and such additional service shall be given without further subsidy therefor.

Mails.

Clause 14 provides for the carriage of mails.

Distance.

The distance from St. John to Havana, Cuba, is 1,600 miles.

'It is understood and agreed to be a further condition of these presents that the contractors shall from time to time furnish the minister with time-tables showing the proposed sailings, and upon the same being approved by the minister they shall be duly advertised in such manner as he may direct.

6. 'It is agreed that in case any steamer engaged in the performance of the service hereinafter stipulated does not sail from a terminal port as herein specified within three days of the date fixed by such time-tables, there shall be deducted from the amount of subsidy payable for such voyage a sum equal to one-tenth of the amount otherwise payable for the performance of such voyage, and so in proportion for further delays or failure to sail from such terminal port; provided, however, that the minister may authorize any vessel to sail at an earlier or a later date than that specified in such time-table should he for any reason deem it advisable to do so.

Ports of Call—Frequency of Service.

1. The contractor, controlling two or more steamships sailing under the British flag or Mexican flag, each of a carrying capacity of not less than 3,500 tons, with a guaranteed rating at Lloyds as A 1, and having adequate passenger accommodation, will within four months from the 1st of May, 1909, place the same or other steamships of like or greater capacity, approved by the minister, on a route between Vancouver

This service is performed by Messrs. Elder, Dempster & Company, of Liverpool, England, under terms of a contract bearing date May 18, 1907, which will expire on September 30, 1912. The principal provisions, aside from those common to all contracts, are as follows:—

Period of Contract.

1. 'During the term of five years from the first day of October, one thousand nine hundred and seven, the contractors shall well and efficiently provide work and maintain a service (hereinafter called "the service") of cargo and mail carrying steamships of the description hereinafter mentioned, sailing from Montreal and calling at Quebec, and at the option of the contractors at other Canadian ports during the St. Lawrence season; and from St. John and calling at Halifax, and at the option of the contractors at other Canadian ports during the remainder of the year (hereinafter called "the Canadian ports"), and proceeding direct to Cape Town and such other South African ports (not less than two other ports) as may be arranged (hereinafter called "the South African ports), upon and subject to the conditions and provisions hereinafter contained.

2. 'The contractors shall at all times during the said term provide and maintain such steamships of the descriptions hereinafter mentioned (hereinafter called "the steamers") as may from time to time be required for the purposes of the service. Each of the steamers shall:—

Speed.

(*b*) 'When employed on the service maintain an average rate of speed of not less than ten knots an hour.

Cold Storage.

(*c*) 'Be suitably fitted with cold storage accommodation and appliances which shall from time to time be the best known for the purpose and capable of carrying in such cold storage not less than two hundred tons of cargo. Provided the contractors shall from time to time in the event of goods offering for shipment provide such further cold storage accommodation as shall be sufficient to meet the requirements of the trade offering.

Electric Light and other Fittings.

(*d*) 'Be supplied with an adequate number of boats and life-saving appliances in compliance with the law, and shall be fitted with electric light and all modern appliances and conveniences and be otherwise constructed, fitted and equipped properly and substantially in a manner suitable for all the requirements of the service and to the satisfaction in all respects and subject to the approval of the minister; provided that the contractors shall, from time to time, in the event of goods being offered for shipment, provide further vessels having such carrying capacity, accommodation and appliances as shall be sufficient to meet the requirements of the trade offering.

Carriage of Mails.

3. The steamers are:—

(*a*) 'To carry all mails sent under the authority of the Postmaster General of the Dominion of Canada (hereinafter called "the Postmaster General") for transmission from Canada to South Africa, irrespective of their origin and ultimate destination.

(*b*) 'Except such letters as are not required by law to pass through the post office, the contractors shall not receive or permit to be received for conveyance on board any steamer any letters other than those mentioned. No mails shall be conveyed by any such steamer on behalf of any colony or foreign country without the permission of the Postmaster General. The whole postage of any mail conveyed by any steamer shall, under all circumstances, be at the disposal of the Postmaster General.

Frequency of Service.

4. 'The contractors shall on the first day of October, one thousand nine hundred and seven, and thereafter until the thirteenth day of September, 1912, at least monthly during the first fifteen days of each month, cause one of the steamers properly found in all respects, to leave one of the Canadian ports, and thence to call at the other of the Canadian ports, and thence proceed direct to one of the South African ports, and thence to call at the others of the South African ports; and the contractors further agree, in the event of goods being offered for shipment, to provide such additional vessels having carrying capacity and accommodation and appliances as shall be sufficient to meet the requirements of the trade offered.

Precedence to be given to Canadian Goods and Shippers.

6. 'No preference, priority or advantage whatsoever shall be granted by the contractors as regards the shipment and conveyance of any goods or products, directly or indirectly, against shippers of Canadian goods and products, who shall always have precedence for such Canadian goods and products over all other shippers, provided that such shippers in respect of such Canadian goods and products shall give not less than ten days' notice in writing to the contractors at their office at the port of shipment, specifying the nature and amount of such goods and products before the date advertised for the departure of any steamer of their intention to ship goods and products, who shall at the same time, if required by the contractors, pay a deposit of not less than 10 per cent upon the freight chargeable in respect of the carriage of such goods and products, and subject thereto the contractors shall ship all such goods and products in order of priority according to the time at which the same shall be actually received by the contractors for shipment.

Subsidy, $146,000 per annum.

The subsidy is $146,000 per annum payable in the city of Ottawa in four quarterly payments in the months of January, April, July and October in each and every year during the continuance of this agreement, and subject always to such subsidy being voted by the Parliament of the Dominion of Canada.

'The contractors shall not in respect of the services receive or accept any subsidy or aid pecuniary or otherwise from any colony or foreign country or any provincial, civic or municipal authority or any person or persons or corporation or corporations, and should any such subsidy or aid be received by the contractors, the Dominion government may deduct the amount thereof from the amount of the next quarterly payment due and owing under this contract, and so from time to time and as often as the contractors receive such subsidy or aid from any colonial or foreign government, provincial, civic or municipal authority or any person or persons or corporation or corporations; but this provision is not to be deemed as a permission or authority for the contractors receiving any such subsidy or aid.

Calls for coaling.

18. 'Subject to the due performance by the contractors of the obligations imposed on them by this contract, they shall be at liberty in sailing from the Canadian ports to the South African ports to call solely for the purpose of coaling at any ports not situate on the continent of America.

Exemptions from calling at Canadian ports.

1912-13.. . . . . $25,000

This service is run the year round by Messrs. Furness, Withy & Company, Limited, between St. John, N.B., Halifax, N.S., and London.

The contract bears date March 1, 1911, and expires March 31, 1912. The principal provisions, aside from those common to all contracts, are as follows:—

Period of Contract.

Ventilated Accommodation for Fruit, Dairy Produce, &c.

2. 'The steamers while run under this contract shall be such as are approved by the minister, and no steamer shall be employed until sanctioned by the minister, and all such steamers shall be fitted with sufficient and suitable accommodation for carrying perishable cargo, such as apples or other fruit, cheese and other provisions with-

out deterioration, with holds and 'tween decks provided with a thorough system of forced ventilation by means of electric or steam-driven fans operating in such manner as to secure a uniform circulation of fresh air through all space occupied by such perishable cargo. The intakes for fresh air shall be protected by contrivances for that purpose similar to the 'Gibbs' steamship ventilators, so as to be operated in all weathers without permitting water, spray or other dampness being taken into any places where cargo is carried, and such ventilating appliances shall be operated at all times when cargo is on board and throughout the entire space wherever such perishable cargo may be stored during any voyage.'

Carriage of Fruit.

3. 'The steamers while so employed shall not carry in any hold, or between any decks more than five tiers of barrels of apples or other fruit except they be stowed in such manner and with such dunnage as will relieve any tier from the weight of more than four other tiers.'

4. 'The handling, loading, stowing and unloading of any fruit carried by said vessels shall be subject to and under the supervision of any officer appointed for that purpose should the minister deem it advisable.'

Speed of Steamers when Carrying Fruit.

5. 'The steamers when carrying fruit shall be run at an average speed of not less than twelve knots per hour.'

Development of Transportation over Government Railway.

6. 'It is hereby agreed by the contractors that as the aid herein expressed and provided for by the Canadian government is for the express purpose of encouraging the development of Canadian trade and the transportation of Canadian goods through Canadian channels, the company accepts the aid on these conditions and agrees that all freight booked or carried by the said steamships from a port in the United Kingdom and during the time these make Halifax or St. John their terminal port shall, when not otherwise routed by shippers or consignees, be delivered to the Intercolonial railway at Halifax or St. John for shipment to final destination in Canada provided that the rates demanded by the Intercolonial railway shall not be in excess of the rates charged by any other railway company from said ports to final destination in Canada.

(*a*) Contractors are to hand over to the Intercolonial railway at Halifax passengers for points in the Maritime Provinces or the province of Quebec, providing the routing of such passengers is controlled by the contractors and that they are not otherwise routed. It is further agreed that the contractors through their agents in Canada shall see that they have all such freight for export as may be secured by them for a port in the United Kingdom at which the subsidized line may call delivered to the Intercolonial railway at Montreal.'

Rebates.

7. 'In addition to the stipulation contained in clause 11 regarding freight rates, the rate per barrel on apples from Halifax to London shall be substantially the same to all persons under the same conditions, and no rebates shall be given directly or indirectly by the contractors or agents thereof to any Canadian exporter in preference to another.'

Subsidy: $25 000 per Season.

9. The subsidy is twenty-five thousand dollars ($25,000), payable as follows:—

The sum of $6,250 on the first day of July, October and January next after the date of these presents, and the balance of $6,250 on the completion of the service on April 1, 1912.

VICTORIA AND SAN FRANCISCO.

PACIFIC COAST STEAMSHIP COMPANY.

Contract No. 10.

Vote 233.—Steam service between Victoria and San Francisco.

1911-12	$3,000
1912-13	$3,000

This service in one sense is run under the terms of the Act of Confederation, which provided that a steam service should be maintained between Victoria and San

Francisco. At that time such a service was the only mode of travel or of transportation of mails, but for some years past the necessity for its use as a mail route has ceased to exist, as letter mails are invariably carried by rail, and only small quantities of newspapers and similar matter are carried by the steamers.

The service at present is run by the Pacific Coast Steamship Company of San Francisco, represented by Messrs. R. P. Rithet & Co., Ltd., Victoria, B.C., under terms of a contract bearing date February 23, 1910, and which expires March 31, 1913. The principal provisions, aside from those common to all contracts, are as follows:—

Period of Contract.

1. The contractors will, on or before the first day of April in the present year, place their steamers, the *Queen*, of 2,727 tons; the *City of Puebla*, 2,623 tons, and the *Umatilla*, of 3,069 tons register, or such other steamers as may be from time to time approved by the minister, on a route between the city or port of San Francisco aforesaid and the city or port of Victoria also aforesaid, and will from and after the said date establish and maintain a regular service between the cities or ports aforesaid, sailing from and returning to each at intervals of not less frequency than seven days, and carry on such service until the thirty-first day of March, one thousand nine hundred and thirteen, unless this contract is sooner terminated under the provisions of section 16 thereof, or unless the said steamers should, prior to that date, discontinue regular calls at Victoria aforesaid, in which case this contract shall thereupon determine and cease to have effect.

Subsidy: $3,000 per annum.

The subsidy is at the rate of three thousand dollars ($3,000) per annum, payable as follows, viz.: $1,000 on the first days of August and December next following the date of these presents, and $1,000 on April 1, 1911, and continue the said payments upon the first days of the said months occurring during the further continuance of this contract.

Carriage of Mails.

Clause 4 of the contract provides for the carrying of mails.

40. 'In consideration of the covenants and agreements herein contained and on the part of the company to be observed and performed, and of the due and faithful performance by the company of all th eservices under this agreement, there shall be payable to the company during the continuance of this agreement (out of such aids or supplies as may from time to time be appropriated by parliament for that purpose) a yearly subsidy or sum after the rate of £45,000 per annum, or (in the event of any such default or failure as hereinafter mentioned) so much of the said subsidy or

sum as shall remain payable in respect of any year after making such deductions therefrom (if any) as hereinafter in that behalf mentioned in respect of any such default or failure.

NOTE.—Of the above-mentioned subsidy of £45,000, Canada contributes £25,000, and Great Britain £20,000.

Deductions from Subsidy.

41. If at any time the company fail to provide a mail ship at the port of Liverpool or Hong-Kong, ready to put to sea, on and at the appointed day or hour, or if such mail ship fail to start or put to sea, on and at the appointed day and hour or so soon thereafter (regard being had to practical considerations) as the anchor of the mail ship can be weighed or the ship loosed from her moorings, then and so often as any such default shall happen there shall be deducted from the subsidy which would in the absence of any such default be payable to the company for the current year the sum of £500, and also the further sum of £100 for every successive 24 hours which shall elapse until such mail ship actually starts or proceeds to sea on the appointed voyage in pursuance of this agreement. Provided always, that the total amount of the sums deducted as last aforesaid shall not in the aggregate exceed by a sum greater than the sum of £500, that part of the said subsidy of £45,000 for the current year which shall be applicable to the whole journey, reckoned from the port of departure to the port of arrival, in respect of which default shall have been made.

42. If at any time or times the mails shall not be conveyed from Liverpool to Hong-Kong or from Hong-Kong to Liverpool as aforesaid within the respective periods of transit hereinbefore stipulated in that behalf, then and so often as the same shall happen there shall be deducted from the subsidy, which but for this provision would be payable to the company for the current year a sum of £100 for every complete period of 12 hours by which the time actually occupied in the conveyance of such mails shall have exceeded the period of transit hereinbefore stipulated in that behalf respectively. Provided always, that the total amount of the sums deducted in respect of any default or failure as hereinbefore mentioned in the delivery of mails shall not exceed that part of the said subsidy of £45,000 for the current year, which shall be applicable to the journey in respect of which such default or failure occurs.

Provided also that no such deductions as in this clause mentioned shall be made in respect of any such default or failure as aforesaid if the company shall prove to the satisfaction of the Postmaster General that such default or failure arose from any cause or causes altogether beyond the control of the company.

Manner and Time of Subsidy Payments.

44. (1) 'Subject to the provisions herein contained, the said subsidy shall be paid by equal quarterly payments on or as soon as conveniently may be after the days hereinafter in this article mentioned.

(2) 'All accounts in relation to the said subsidy, and any deduction therefrom or additions thereto as hereinbefore provided, shall be made out and settled quarterly up to and on or as soon as conveniently may be after the 31st day of March, the 30th day of June, the 30th day of September and the 31st day of December in each year, and the amount or balance (if any) which shall be justly due to the company on each such quarterly account shall be paid by the Postmaster General out of such aids or supplies as aforesaid upon the settlement of such account; and for the purposes of such accounts, and subject as aforesaid the said yearly subsidy of £45,000 or any increased or decreased subsidy which may become payable under or by virtue of any of the provisions herein contained shall be deemed to accrue from day to day

subject to the liability of the same to be altered by such additions or deductions as aforesaid.

AUTHORIZED BY STATUTE.

(8-9 Edward VII., Chapter 36.)

CANADA AND FRANCE.

Contract No. 32.

H. AND A. ALLAN.

1911-12.. .. .. $200,000
1912-13.. .. .. $200,000

This service is performed by Messrs. H. and A. Allan, of Montreal, under terms of a contract bearing date of March 10, 1911, which will expire on the opening of navigation in 1912. The principal provisions, aside from those common to all contracts, are as follows:—

Service—Speed.

1. The contractors owning and controlling in their capacity aforesaid, the steamships *Pomeranian, Sardinian, Corinthian* or *Sicilian,* will establish upon the opening of navigation in the year next succeeding the date of these presents (and with the assistance of such other steamships as may be approved by the minister) and from that time maintain for one year a regular direct steamship service between a port or ports in the Dominion of Canada and a port or ports in France, with the option upon the part of the contractors of extending each eastbound voyage to a port or ports in Great Britain as hereinafter defined with not less than three steamships, each of which shall not be less than 3,000 tons gross register, with a carrying capacity of 4,500 tons available for agricultural products, merchandise and all other kinds of freight, each of which shall also be fitted with such amount of cold storage accommodation and under such regulations as the minister may require, and thereafter during the continuance of this contract to be at all times subject to the approval of the minister. The speed of the said steamers at sea when loaded and while so employed shall be during the term of this contract a minimum of not less than ten knots per hour, such steamers to be fully equipped in the most approved and modern style.

Ports of Call.

2. It is understood and agreed that during the season of open navigation on the River St. Lawrence covered by this contract, the terminal ports in Canada shall be Montreal or Quebec, and during the season of closed navigation on the St. Lawrence such terminal ports shall be Halifax or St. John, at contractors' option, subject to the approval of the minister; and it is understood and agreed that the ports of call in France upon each eastbound and westbound trip shall be Cherbourg or Havre, or both, at the option of the contractors, and each eastbound trip to be extended at the option of the contractors to a port or ports in Great Britain; provided, however, that in any event the first port of call after leaving Canada shall be a port in France and that the last port of departure for Canada shall also be a port in France.

Frequency of Service.

3. It is understood and agreed that the number of round voyages from France to Canada and return as herein stipulated during the continuance of this contract shall not be less than fifteen yearly; that is to say, that during the months of May to November, inclusive, in each year there shall be run not less than two full round

voyages each month and during the remaining months of December to April, inclusive, the remaining voyages shall be performed; such service to be regular and uninterrupted with sailings on such fixed dates as may be approved of by the minister, and such dates shall be by the contractors regularly advertised at least two weeks in advance of every such sailing. It is further understood and agreed that at the option of the contractors the number of round voyages from France to Canada and return as herein stipulated may be increased to a maximum of thirty per annum, such additional voyages, if run, to be run regularly with sailings on such fixed dates as may be approved by the minister, and such dates shall be by the contractors regularly advertised as hereinbefore provided.

Subsidy: At the rate of $5,555.55 to $6,666.65 for each round voyage, but not to exceed $200,000 per annum.

4. The subsidy is at the rate of $5,555.55 for each round voyage completed at an average speed of 10 knots, and $555.55 extra for each knot exceeding an average speed of 10 knots per hour, up to and including an average speed of 12 knots; provided, however, that the total amount of subsidy to be claimed or paid for the said one year's service shall not exceed the sum of $200,000, such subsidy being payable in quarterly instalments on the first day of each of the months of July, October, January and April, occurring during the continuance of this contract. Provided also that it is the true intent and meaning of these presents that the contractors shall have no claim to payment of any instalment of subsidy or any part thereof unless up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and unless all the provisions and stipulations as to freight and freight rates and dates of sailing have been in all respects faithfully observed and carried out according to the true intent and meaning of these presents; it being understood and agreed that, in the event of any of the said steamers being at any time so disabled as to necessitate their being docked for repairs, the failure to perform the terms of this contract during such accident and the time reasonably occupied in such repairs, shall not be taken as a default or breach of the stipulations of this contract, or subject the contractors to deductions from the amount of subsidy, if any, payable for any voyage delayed in consequence of such docking for such repairs, but there shall be no claim for nor payment of any subsidy in respect of any voyage not actually performed.

Speed Calculations.

5. It is further understood and agreed that the average speed referred to in clause 4 shall be computed on the basis of the elapsed time of the round voyage, less delays by reason of fog and ice only, or in the case of heavy weather as hereinafter in this clause provided, and the distance shall be taken to be the actual mileage shown by the logs of the respective steamships.

(*a*) No additional subsidy shall be paid for a higher speed than 12 knots.

Notwithstanding any other provisions in this contract, no allowance for heavy weather shall be considered in calculating the speed during any one round voyage for any heavy weather delays less than a total of twenty hours; but the elapsed time shall be taken in calculating the said speed. In the case of any delays for heavy weather amounting to twenty hours or more upon any round voyage, the minister may in his discretion eliminate such additional time in calculating the said speed upon satisfactory evidence of such delays being submitted to the minister in writing.

Freight Rates.

7. 'It is hereby agreed that the rates charged for freights to or from any Canadian port included in this contract shall not exceed the rates charged by regular passenger steamers to or from New York, Boston and Portland, to or from the port of Havre, and the minister may at any time, if he deem it advisable, and after sufficient notice to the contractors, revise the rates to be charged on all classes of goods, such revision to be in all cases consistent with a fair and sufficient remuneration for the services performed by such steamers, and the contractors shall carry between the ports hereinbefore named, on all voyages of the said steamships employed under the terms of this contract, all freights that may be offered or that can be reasonably procured at rates which shall not be in excess of the aforesaid rates, and in no case shall any discrimination be made as regards rates or otherwise, directly or indirectly against Canadian merchants or shippers, who shall always have precedence for their freight and goods over all other merchants and shippers.

Freight booked to Halifax or St. John to be delivered to Intercolonial Railway.

7. 'It is hereby agreed by the contractors that, as the aid herein expressed and provided for by the government is for the express purpose of encouraging the development of Canadian trade and the transportation of Canadian goods through Canadian channels, the company accepts the aid on these conditions, and agrees that all freight booked or carried by the said steamships from a port in France, and during the time these ships make Halifax or St. John their terminal port, shall, when not otherwise routed by shippers or consignees, be delivered to the Intercolonial Railway at Halifax or St. John for shipment to final destination in Canada, provided that the rates demanded by the Intercolonial Railway shall not be in excess of the rates charged by any railway company from said ports to final destination in Canada.

Passengers for Quebec and Maritime Provinces to be delivered to Intercolonial Railway at Halifax—Freight for France to be carried by Intercolonial Railway.

Contractors are to hand over to the Intercolonial Railway at Halifax passengers for points in the maritime provinces or the province of Quebec, providing the routing of such passengers is controlled by the contractors, and that they are not otherwise routed. It is further agreed that the contractors, through their agents in Canada shall use all and every effort to have all such freight for export as may be secured by them for a port in France at which the subsidized line may call, delivered to the Intercolonial Railway at Montreal.

Trade Commissioners.

Clause 9 provides for free transportation of Canadian Trade Commissioners, their wives, children and household effects, and also of Canadian commercial agents, when such commissioners and agents are travelling upon official duties.

Carriage of Mails.

Clause 12 of the contract provides for the carriage of mails.

Calls at Foreign Ports.

18. 'The steamers employed in carrying out the provisions of this contract shall not on any voyage either outwards or homewards call at any foreign port not specified in this contract.

SOME CLAUSES COMMON TO ALL CONTRACTS.

NOTE.—Some of the principal sections common to all contracts, and as such hereinbefore frequently referred to, read as follows:—

Proof of Performance of Service to be Furnished.

'The contractors shall furnish and establish at their own expense the necessary agents required for the efficient performance of this contract, and shall with diligence, as soon after the completion of each voyage as may be, furnish to the minister full and complete copies of the manifests of the cargoes and lists of passengers carried on each voyage, duly certified by the proper officers of customs, and also such other documents, information and evidence as may be reasonably required by the minister to show the volume, extent and value of the trade carried on by the said steamers, and the full performance on their part of the services, requirements and conditions of this contract in order to enable him to judge as to whether the terms of this contract have been or are being fully and faithfully carried out and complied with, within the true intent and meaning thereof, and his decision in that respect shall be binding, final and conclusive; and the furnishing of such certificates, documents and evidence as hereinbefore specified shall be a condition, precedent to the payment of the subsidy herein provided for, or any portion thereof, and if in the opinion of the minister, all the terms of this contract have not been fully complied with by the contractors he may deduct from the subsidy otherwise payable such portion thereof as he may deem fit and proper, taking into consideration all the circumstances connected therewith, and the contractors shall at all times during the continuance of this contract well and faithfully abide by and conform to all such requirements as may be made by the minister with regard to the said steamers in the performance of this contract.

British Subjects.

It is further understood and agreed by the contractors, that two-thirds of the total number of officers, engineers, stewards, crew or other employees whatsoever upon the steamships engaged in the performance of the service herein contracted for, shall be British subjects, but the non-observance of this clause shall not constitute a violation of this contract in such individual cases as may from time to time be approved by the minister in writing.

Equipment of Steamers.

'The steamers to be employed as herein specified, shall at all times during the continuance of this contract be fully seaworthy, well-officered, manned, victualled, equipped, provided and furnished, having regard to the service which the contractors have hereby undertaken to perform; and shall have ample and suitable accommodation for the passengers, mails and freights to be carried over the routes specified; and shall, at all times, carry boats and life-saving appliances in compliance with the law, and shall be in all respects subject to the approval of the minister.

Accommodation for Mails.

'The said steamers shall be provided with sufficient and convenient accommodation and protection for all such mails, to the satisfaction of the Honourable the Postmaster General of Canada for the time being, and the contractor shall further take

all reasonable and necessary precautions for the protection of such mails while upon the said steamers or while in the contractors' charge or custody, from loss, damage or injury in any way, and the contractors shall be responsible for any loss or damage thereto caused by negligence or want of proper care or accommodation on the part of the contractors, their agents or servants, or on the part of the officers, employees or crew on board the said steamers, and this without regard to any question as to the legal liability of the Postmaster General to the owners of the articles of mail matter contained in such mails for damage or loss sustained in transit.

Definition of term 'Mails.'

'The expression "mails" for the purpose of this contract shall be deemed to mean and include all boxes, bags, baskets or packets of or containing letters, post cards, newspapers, parcels, books, or printed papers, and all other articles which under the Post Office Act and postal regulations for the time being in force are transmissible by post in Canada, without regard to place either of origin or destination, and also all empty bags, empty boxes and other receptacles, stores and articles used or to be used in carrying on the post office service, or which shall ordinarily be sent by or to or from the post offices.

No Letters except H. M. Mails to be Carried.

'The contractors shall not, nor shall any of their agents or servants, or officers or crew of the said steamers receive or permit to be received on board of the said steamers any letters for conveyance other than those contained in His Majesty's mails, or which are or may be privileged by law, nor the mails of any other country, except such as are specified by the Postmaster General of Canada, for the time being.

Government Officials to be Carried free of Charge.

The Honourable the Postmaster General of Canada, or the Honourable the Minister of Trade and Commerce for the time being, or any inspector or officer of the Post Office Department or of the Department of Trade and Commerce, who may in the execution of his duty travel in the said steamers, shall be carried free of charge.

Proper Accounts to be Kept.

The contractors shall keep full and proper accounts of and in connection with the working of this service, and shall keep such accounts separate and distinct from any other accounts of or connected with other branches of their business; and in any contingency which, in the opinion of the minister, may render such a course necessary, the contractors shall allow any officer or officers named by the minister free access to such accounts and all books, papers and documents connected therewith.

Substitutes for Disabled Steamers.

It is understood that if the said steamer shall be by peril of the sea or other unavoidable casualty, lost, destroyed or temporarily disabled from performing the voyages herein agreed to be performed according to the true intent and meaning of these presents, the contractors may in such case as soon as reasonably may be, having regard to the circumstances, replace the said steamer by another of equal class, speed, equipment, character and capacity to the satisfaction and approval of the minister in case the said steamer has been only temporarily disabled, and continue the service herein contracted for with such substituted or repaired steamer with as little delay as possible under all circumstances.

SESSIONAL PAPER No. 10e

Freight and Passenger Tariffs—Proof of Performance of Service to be Furnished.

'The contractors shall carry on each steamer running under this contract, according to its capacity, on all voyages, all the freight and passengers which may be reasonably offered or obtained, and at tariff rates, both as to passengers and freight, which may be from time to time approved by the minister; and the contractors shall furnish to the minister such documents, information and evidence as may be required b ythe minister, to show the volume, extent and value of the trade carried on by the said steamer, and such customs certificates, documents and evidence as may be necessary or as may be required by the minister to prove the performance of the service herein contracted for, and to enable the minister to judge as to whether this contract is being carefully and faithfully carried out and performed and the furnishing of such certificates, documents, information and evidence, as hereinbefore specified, shall be a condition precedent to the payment of the subsidy herein provided for or any portion thereof.

Deductions from Subsidy—Time-tables to be Furnished—Docking Disabled Steamers.

'Provided, however, that it is the true intent and meaning of these presents that no amount or instalment of subsidy shall be payable or be paid at any time, unless it appears to the satisfaction of the minister that up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and that all provisions and stipulations as to freight and freight rates and dates of sailing have been in all respects faithfully observed and carried out, according to the true intent and meaning of these presents; and it is understood and agreed to be a further condition of these presents that the contractors shall at least two weeks prior to the first sailing under this contract furnish to the minister time-tables showing the proposed sailings, and upon the same being approved by the minister, they shall be duly advertised in such manner as he may direct; and it is also agreed that in case either of the steamers herein named, or a substituted steamer sanctioned by the minister, does not sail from a terminal port as herein specified within of the date fixed by such time-tables, there shall be deducted from the amount of subsidy payable for such voyage a sum equal to one-tenth of the amount otherwise payable for the performance of such voyage, and so in proportion for further delays or failure to sail from such terminal port. Provided, however, that the minister may authorize any vessel to sail either at an earlier or a later date than that specified in such time-tables should he for any reason deem it advisable to do so; it being understood and agreed that, in the event of any of the said steamers being at any time so disabled as to be obliged to be docked for repairs, the failure to perform the terms of this contract owing to such accident and for the time reasonably occupied in the repair of the damaged steamer, shall not be taken as a default or breach of the stipulations of this contract, or subject the contractors to deductions as above from the amount of subsidy, if any, payable for any voyage delayed in consequence of such docking for repairs, but there shall be no claim for nor payment of any subsidy in respect of any voyage not actually performed.

Carriage of Mails.

'The contractors shall during the performance of this contract, convey on each and every trip of the steamers performing the aforementioned services, both on outward and homeward voyages, all such mails as shall be tendered to the proper officers or persons in that behalf on the said steamers by or on behalf or under the direction of the postal authorities of Canada, or those at the terminal port or ports of call

herein referred to, and shall deliver all such mails at their proper destinations at the terminal port or ports of call above referred to; and the expenses of carrying such mails from the post offices or railway stations to the steamers and from the steamers to the post offices or railway stations at the terminal ports and at the ports of call shall be borne by the contractors, who will be subject to all general and special regulations now or hereafter existing during the continuance of this contract in connection with the postal service. For the conveyance of all such mails no payment shall be made or required over or beyond the amount of subsidy herein mentioned or provided for.

Freight and Passenger Rates to be Approved by the Minister.

'The contractors shall at least three weeks prior to the first sailing under this contract, furnish to the minister a schedule of the freight rates proposed to be charged between the different ports on both east and west bound trips, which schedule shall be subject to the approval of the minister, and after being approved by him shall not be changed except with his consent; and the minister may at any time, if he deem it advisable, fix the maximum rates to be charged on any article or class of goods, and the contractors shall carry between the ports hereinbefore named, on all voyages of the said steamships employed under the terms of this contract, all passengers or freight that may be offered or that can reasonably be procured, at rates which shall not be in excess of such maximum rates as fixed by the minister, should he deem it advisable to so fix such maximum rates, and in no case shall any discrimination be made as regards rates, or otherwise, directly or indirectly, against Canadian merchants or shippers, who shall always have precedence for their freight and goods over all other merchants and shippers; and it is agreed and understood that the freight rates on east-bound trips, sailing from or as hereinbefore provided, on through bills of lading to from any place in the provinces of Ontario and Quebec, or from any Canadian points farther west, shall in no case be greater than from the same place to via any United States route or port; and on west-bound trips the rates from to any place in Ontario or Quebec, or other Canadian points farther west, shall be as favourable as via any United States route or port to the same place; and it is further understood and agreed that the said steamers shall not carry between the ports of or and aforesaid, on any voyage run under the terms of this contract, either deals or lumber or timber to a greater extent than fifty per cent of the total quantity of the cargo carried on such voyage, and such quantity only in case other Canadian products are not offering or cannot be obtained. Provided, however, that in the event of other cargo not being obtainable, satisfactory evidence of that fact being furnished to the minister, then the contractors shall be allowed to make up the balance of the cargo with deals, boards or timber.

Calls at Foreign Ports.

'The steamer employed in carrying out the provisions of this contract shall not on any of its trips call at any foreign port not specified in this contract.

Carriage of nitro-glycerine or dangerous articles.

'The contractor shall not convey or permit to be conveyed in any steamer while employed in this service any nitro-glycerine or any other article which in the opinion of the minister shall be considered dangerous.

Subsidy subject to vote of Canadian parliament.

'It is conditioned, declared and agreed that the payment of subsidy, as hereinbefore stipulated, is subject to the amount specified being provided for the purpose by a vote of the parliament of Canada, and that if no amount is voted for the purpose, or if any amount voted has become exhausted in payment thereof, and no further sum is voted for the purpose, this contract or agreement shall terminate and become void and of no effect, and the party of the first part shall not in consequence be held liable to damage.

Minister's right to terminate contract.

'It is declared to be the true intent and meaning of these presents, that the minister shall have the right at any time during the continuance of this contract, upon 30 days' notice in writing to the contractors, their successors or assigns, to terminate this contract, and every matter and thing herein contained, if it shall appear to the minister that there has been any breach on the part of the contractors, their successors or assigns, of any of the covenants, agreements, stipulations or provisions herein contained and entered into on the part of the contractors; and it is declared and agreed that the minister shall at all times be the sole and final judge as to whether there has been any such breach, and his decision shall be absolute, final and conclusive.

Assignment of contract.

'This contract shall not, nor shall any right or interest therein be assigned without the consent in writing of the minister to such assignment having been first obtained.

Canadian members of parliament not admitted to share in contract.

'It is a condition of these presents that no member of the House of Commons of Canada shall be admitted to any share or part of this contract or agreement nor to any benefit to arise therefrom.

Changes in contract.

'The minister may authorize any change or changes in the terms of this contract as may not be inconsistent with the vote providing for the payment of the subsidy.

Minister to be final judge as to full carrying out of contract.

'The minister shall at all times be the judge as to whether the terms of this contract have been or are being fully and faithfully carried out and complied with within the true intent and meaning thereof, and his decision in that respect shall be binding, final and conclusive.

COINAGE, WEIGHTS AND MEASURES.

To assist in arriving at a comprehensive understanding of the value of foreign currencies, weights and measures (as expressed in foreign trade returns, tariffs, &c.,) as compared with those of Canada, tables have been prepared as follows:—

As regards those of Canada, the law provides that the denominations of money in the currency of Canada shall be dollars, cents and mills, the cent being the one hundredth part of a dollar, and the mill one-tenth part of a cent.

That —The currency of Canada shall be such that the British sovereign (the pound sterling) of legal weight and fineness, shall be equal to four dollars eighty-six cents and two-thirds of a cent.

In like manner the law provides as respects weights, that the unit shall be the standard pound (avoirdupois) of 7,000 grains, one-sixteenth part of the standard pound shall be an ounce (437½ grains) one hundred pounds a cental, and two thousand pounds a ton, and that four hundred and eighty grains shall be an ounce troy, or 5,760 grains a pound troy.

As regards measures—that the unit or standard measure of capacity, as well for liquids as for dry measures, shall be the gallon containing ten standard pounds weight of distilled water weighed with the water and air at a temperature of sixty-two degrees Fahrenheit, with the barometer at thirty inches, that the quart shall be one-fourth part of the gallon, and the pint one-eight part of the gallon, and that eight gallons shall be a bushel.

This gallon commonly known as the 'Imperial gallon,' contains 277·274 cubic inches, or 353·036 cylindrical inches.

The standard measure of length is the yard, one-third part of which it is provided shall be a foot, and the twelfth part of such foot shall be an inch.

In many countries the Metric system of weights and measures has been adopted. A separate table of Canadian equivalents of these is given in order to avoid repetition, the word 'Metric' being used in the general table in each case where the system is in vogue, as indicating a reference to that table.

The equivalent value of the monetary unit can only be given as respects those countries having a gold standard. Where silver is the standard, the value of the currency necessarily fluctuates correspondingly to the market value of silver bullion, and were any attempt made to quote the value of such currency it would, under present circumstances, be misleading, therefore, the weight in decimal parts of an ounce with the fineness of the coin is given instead, which will enable any one to approximate the value of the currency according to the current value of fine bar silver. As an example, say fine bar silver at 75 cents an ounce, the Bolivian dollar weighs ·801 of an ounce, its fineness is ·900, therefore $75 \times ·801 = 60·075$ which $\times ·900 = 54·0675$, or a small fraction over 54 cents, and the actual intrinsic value of the pure silver contained in the coin, to which should be added a reasonable allowance to cover the value of the alloy, the cost of the coinage, and in some instances exchange, the aggregate of which would be approximately the current value in Canadian currency of the dollar in question.

Unless carefully noted, the quotations as usually given of the current value per ounce of silver may be misconstrued and lead to misapprehensions, as it is sometimes quoted per ounce *fine*, and sometimes per ounce *standard;* thus for instance on a certain day the London quotation reads 'fine silver per ounce standard 32d.,' while on the same day it is quoted in New York '69½ cents per ounce fine;' as 32d. is equal to a fraction over 64⅞ cents, there would appear a difference of about 4⅝ cents per ounce between the two prices, the New York price appearing that much in excess of the other, were it not noticed that one is based upon *standard* fineness and the other upon absolute fineness, but by reducing the New York 'fine' to London 'standard' (of ·925 fine, or 444 grains fine to the ounce) the actual difference between the two quotations is found to be only about ⅝ of one cent per ounce, the London price being that much in excess of the New York.

To reduce the value of *standard* or sterling silver when expressed in pence to *fine* expressed in cents, multiply the pence and decimal parts thereof by 2·192.

To find the *standard* or sterling value expressed in pence and decimal parts thereof when *fine* is expressed in cents multiply the cents by 0·4562.

*Old weights and measures sometimes used. ‡ The values in Chinese Imperial Customs Returns are always given in Haikwan taels, which are relatively in value equal to about 1·113 Shanghai taels. The tael is in reality not a standard of value (there is no such coin), but of weight, and when used in the sense of a value it only represents its weight in gold or silver, as the case may be, the real difficulty is to establish its exact equivalent in grains. Authorities differ greatly, as also does the practice in different sections of China. The Chinese are far from being inexact, and the probability is that there exists a standard, and a further probability that it is equal to 10 Japanese mommes, or 579·72 grains, which figures have been used in computing the value as above. It will be observed, however, that these figures fall short about 3·61 grains from the weight usual (say 1⅛ oz. per tael) in dealing with the weights other than those of gold and silver. §Usually reckoned same as Chinese Picul of 133⅓ lbs. ₳This is long measure. Cloth measure is 25% greater in length than long measure. Therefore by cloth measure 1 sun = 1·4916 in. 1 shaku = 14·916 in. and 1 jo = 149·16 in.

NOTE.—The statistics which prior to March 1, 1906, related to the "Zollgebiet" or Customs Union now covers the trade of an enlarged area known as the "Wirtschaftsgebiet" or Economic Union in which the Free Ports of Hamburg, Cuxhaven, Bremerhaven and Geestemunde are included. The trade with these ports accordingly disappears from the statistics from that date.
